📍 Kathmandu, Nepal

in [Linkedin](#) |  [github](#)

## SKILLS

- **Programming Languages & Scripting:** Python, Bash
- **Infrastructure & Cloud:** AWS EC2, Terraform, Ansible
- **CI/CD & Version Control:** Git, GitHub, GitHub Actions
- **Containerization & Deployment:** Docker, NGINX (web server & reverse proxy)
- **Test Automation & QA:** Selenium WebDriver with Python (automated testing), Manual testing
- **Operating Systems:** Linux (Ubuntu), Windows

## EDUCATION

### **Bachelor of Information Management**

Nagarjuna College of IT (Tribhuvan University)  
— Kathmandu, Nepal  
• 2021 – 2025

### **Plus Two (10+2) in Management**

Himalayan Whitehouse International Secondary School  
— Kathmandu, Nepal  
• Completed 2020

### **Secondary Education Examination (SEE)**

Gyankunj Secondary School — Kathmandu, Nepal  
• Completed 2018 | GPA: 3.85/4.00

## TRAINING & CERTIFICATIONS

- **MERN Stack Development**  
Evolve IT Hub — Complete course on React, Node.js, MongoDB & Express
- **DevOps Fundamentals**  
Deerwalk — Hands-on training in Docker, NGINX, Terraform, Ansible, AWS EC2

## PROFILE

Aspiring DevOps Engineer with hands-on experience in Linux administration, AWS EC2, Docker, GitHub Actions, Terraform, Ansible, and Python scripting. Experienced in deploying and automating Django applications through containerization, and github CI/CD pipelines. Strong foundation in cloud infrastructure, system administration, and automation gained through practical projects and QA internship experience. Passionate about building reliable, scalable, and secure deployment workflows.

## PROFESSIONAL EXPERIENCE

### QA Intern

*BenRay Technologies — Lalitpur, Nepal*  
Jan 2025 – May 2025

- Conducted manual & Selenium-Python automated tests across desktop, mobile, and web applications
- Performed performance & stress testing to identify and resolve bottlenecks
- Tracked defects in Quire and collaborated with developers on fixes

## PROJECTS

### **Portfolio website | Django and DevOps cycle** ([source code](#))

- Developed a responsive portfolio website using Python and Django while maintaining authentication and CRUD functionality.
- Deployed the application on Ubuntu Linux virtual machine using Docker and NGINX
- Automated deployment workflows using GitHub Actions CI/CD pipelines.
- Applied containerization, and deployment automation practices.

### **DevOps Projects (Django**

### **Automation – End-to-End Workflow) ([github.com](#))**

- **Containerization:** Dockerized Django app (Docker Compose, NGINX); published [iamkaushal20/deerwalk](https://iamkaushal20/deerwalk)
- **CI/CD:** GitHub Actions for code linting, automated testing, and zero touch deployments
- **IaC & Provisioning:** Terraform-provisioned AWS EC2; configured servers using Ansible and developed bash scripts for repetitive tasks
